Building and running micro services on OpenShift: Part II - Building and running micro services on

OpenShift: Part II by OpenShift 20,117 views 8 years ago 7 minutes, 32 seconds - Today we continue with Veer Muchandi's series of 4 videos that will guide you through every detail you need to know to start ...

Intro

Each Microservice may be made up of one or more containers

Container Orchestration - Kubernetes Master provides scheduler for pod placement on nodes

Container Orchestration - Pod placement is determined based on the defined Policy

Microservices can scale independently

Kubernetes Replication Controller supports Microservices scaling by scaling pods

Design for Failure: Management/Replication controller manages the pod lifecycle

Design for failure: OpenShift automatically recovers and deploys a new Pod

SUMMARY: MICRO-SERVICES ON OPENSIFT

Road Design with OpenRoads Designer Strategies for Beginners | Bentley Education - Road Design with

OpenRoads Designer Strategies for Beginners | Bentley Education by Bentley Education 34,054 views 3 years ago 1 hour, 21 minutes - In this video, you will learn about road design on OpenRoads Designer with your existing data. To learn more visit: ...

assigning your typical cross sections to the alignment

review your work in 2d 3d profiles

import the terrain

create a geometric file

import the entire alignment files

create your own geometric file horizontal geometry

create the vertical designs

set the design standards

move ahead with creating a corridor and assigning the cross section elements

select your active profiles

select a template or typical cross section

applying a single template

create your cross section elements by creating a typical cross section

change the width depth of the payments

view the cross sections

assigning the super elevation sections

generate your super elevation report

remove the quantity of the entire row by selecting the corridor

create it as a horizontal alignment profile

create the profile

remove the annotations

create the cross-section
